

ISHRAE

# Success Story

## Sachin Maheshwari

### Academics...

I am a Mechanical Engineer & MBA graduate with majors in Finance.

### Graph with ISHRAE...

I officially joined ISHRAE in 2004, but my familiarity with ISHRAE goes way back to my school days, as my father has been an active member ( one of the 5 founder member & first Secretary of the Society ). I have fond memories of attending various ISHRAE picnics as a young kid. My true involvement with ISHRAE

began when I got inducted as a working committee member in Delhi Chapter in the year 2005. I never realized at that time that it would turn out to be such a significant step. ISHRAE continues to inspire me since then. I have been fortunate to serve ISHRAE under various roles and being the youngest National President.

### Professional Career

After completion of MBA in the year 2002, I joined Corporate Strategic Planning Group of M/s Escorts Limited, with a work profile involving Mergers, Acquisitions & Divestments. Thereafter I joined my family business, M/s Caryaire Equipments, recognized as one of the pioneers in the field of Air Distribution, Air Handling & Ventilation Equipments. I soon took over charge as Managing Director of our newly formed Joint venture, M/s Nicotra India, which is now one of the largest Fan manufacturing company in India. The professional journey has been quite exciting so far, led by various innovations & business restructuring. Over last few years, we have expanded & diversified business operations under new segments, products & territories. Caryaire Group now has an annual turnover of INR 250cr, with an employee strength of 500+ workforce.

### Benefits from ISHRAE...

ISHRAE helped me a create an identity for myself, beyond a strong persona of my father. Working for ISHRAE has been a great learning experience for me. I consider this as my second MBA degree. Lot of my experience that I gained in ISHRAE have helped me organize my professional working in far better

manner. There is so much to learn when you interact and jointly address an issue with a group of wonderful minds. It really widens your outlook and enhances your vision to look and approach every aspect. The passion of other people drives more passion in you.

### About ISHRAE in one line:

An institution that binds the entire Indian HVAC&R industry

### My words for young ISHRAE Members...

As you have already made a wise choice of being a member of one of the most prestigious institution, let your efforts not stop here. Be an active working member of ISHRAE and experience the journey. This shall truly

give you real value for your membership. You are the future of this industry and if you dream to make a difference in this world, ISHRAE would offer you a great platform
